

# CHOKING BABY! WHAT DO I DO?

You are at a friend's house for dinner and someone yells that their baby is having trouble breathing. What would you do? Do you know what to do? Many people have seen what to do for adults, but are at a complete loss of what to do when it comes to infants.

Here is a short video to demonstrate how to deal with a choking infant and the actions that need to be taken. Hopefully this may even encourage you to take a full CPR course to learn more rescue techniques for all age groups and acquire the knowledge and skills needed to help save someone.
